Smart PNG and JPEG compression

More than 1 billion PNG and JPEG images optimized and still counting!

What does TinyPNG do?
TinyPNG uses smart lossy compression techniques to **reduce the file size** of your PNG files. By selectively decreasing the number of colors in the image, fewer bytes are required to store the data. The effect is nearly

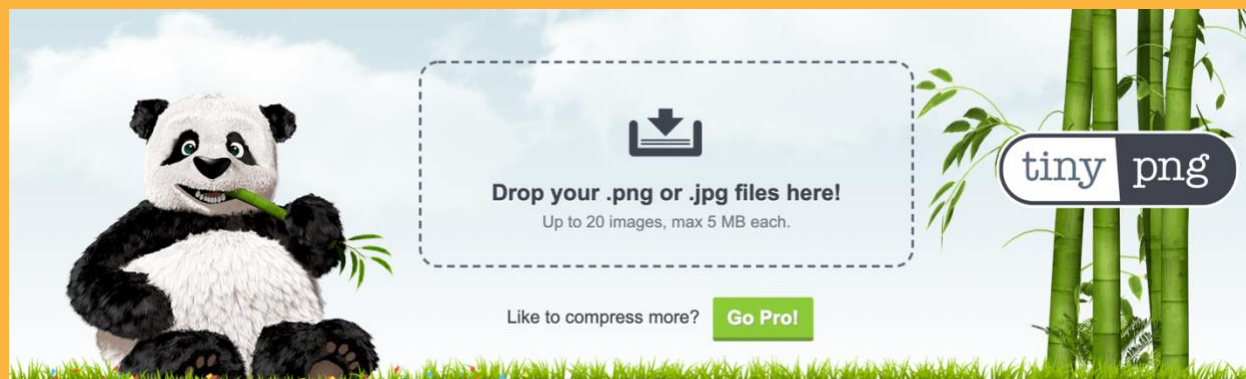

Why should I use TinyPNG?
PNG is useful because it's the only widely supported format that can store partially **transparent images**. The format uses compression, but the files can still be large. Use TinyPNG to shrink images for your apps

Get the Web Interface Pro!
Drag & drop **more than 20 files** at once
